

## Mapping of Parent Hamiltonians: From Abelian and Non-Abelian Quantum Hall States to Exact Models of Critical Spin Chains

By Martin Greiter

Springer. Hardcover. Book Condition: New. Hardcover. 220 pages. Dimensions: 9.7in. x 6.5in. x 0.8in. This monograph introduces an exact model for a critical spin chain with arbitrary spin  $S$ , which includes the Haldane-Shastry model as the special case  $S=1/2$ . While spinons in the Haldane-Shastry model obey abelian half-fermi statistics, the spinons in the general model introduced here obey non-abelian statistics. This manifests itself through topological choices for the fractional momentum spacings. The general model is derived by mapping exact models of quantized Hall states onto spin chains. The book begins with pedagogical review of all the relevant models including the non-abelian statistics in the Pfaffian Hall state, and is understandable to every student with a graduate course in quantum mechanics. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.

### Reviews

*The most effective ebook I have ever read. It can be written in easy words and phrases and not difficult to understand. I am just pleased to let you know that this is the finest publication I have read within my individual lifestyle and could be the finest publication for at any time.*

-- **Tania Mosciski**

*Simply no phrases to describe. It is amongst the most awesome pdf we have read through. Your life period will probably be transformed as soon as you complete looking over this publication.*
