Connecting People with Technology: Issues in Professional Communication

By George F. Hayhoe, Helen M. Grady, Charles H. Sides

Baywood Publishing Company Inc. Hardback. Book Condition: new. BRAND NEW, Connecting People with Technology: Issues in Professional Communication, George F. Hayhoe, Helen M. Grady, Charles H. Sides, This book explores five important areas where technology affects society, and suggests ways in which human communication can facilitate the use of that technology. Usability has become a foundational discipline in technical and professional communication that grows out of our rhetorical roots, which emphasize purpose and audience. As our appreciation of audience has grown beyond engineers and scientists to lay users of technology, our appreciation of the diversity of those audiences in terms of age, geography, and other factors has similarly expanded. We are also coming to grips with what Thomas Friedman calls the 'flat world,' a paradigm that influences how we communicate with members of other cultures and speakers of other languages. And because most of the flatteners are either technologies themselves or technology-driven, technical and professional communicators need to leverage these technologies to serve global audiences. Similarly, we are inundated with information about world crises involving health and safety issues. These crises are driven by the effects of terrorism, the aging population, HIV/AIDS, and both human-made and natural disasters. These issues are becoming more...
