Of course, something about the postmodernist sensibility readily embraces the ambiguity, impermanence, transience, and twilight nature of bordered spaces among the planets 192 territorially defined states. But we have another motivation in assembling this book, one rooted in contemporary rivalries sited in one of the worlds most open regions. Until recently, border studies in contemporary Southeast Asia appeared as an afterthought at best to the politics of interstate rivalry and national consolidation. The maps set out all agreed postcolonial lines. Meanwhile, the physical demarcation of these boundaries lagged. Large slices of territory, on land and at sea, eluded definition or delineation. That comforting ambiguity has disappeared. Both evolving technologies and price levels enable rapid resource extraction in places, and in volumes, once scarcely imaginable. The old adage that God really does have a sense of humor (after all, look where HeShe put the oil) holds as true in Southeast Asia as in the Middle East. The beginning of the 21st centurys second decade is witnessing an intensifying diplomacy, both state-to-state and commercial, over offshore petroleum. In particular, the South China Sea has moved from being a rather arcane area of conflict studies to the status of a bellwether issue. Along with other contested areas in the western Pacific and south Asia, the problem increasingly defines Chinas regional relationships in Asiaand with powers outside the region, especially the United States. Yet intraregional territorial differences also hobble multilateral diplomacy to counter Chinese claims. For the regions national governments, the...
