Get a better understanding of what is known and what is not known in this widespread practice Screening and brief intervention (SBI) has been around for over 40 years and is a widely recognized practice. Alcohol/Drug Screening and Brief Intervention: Advances in Evidence-Based Practice provides a valuable exploration of the present literature, the effectiveness and cost-effectiveness of screening and brief intervention, and methodological challenges in studying these practices.

Respected leaders in the field discuss ways to measure the use of screening and brief intervention in practice, the multiple risk factor context in which unhealthy alcohol use occurs, clinician training issues, effective strategies to screen adolescents, which patients are most likely to change from SBI, and what research is needed in the future. Screening and brief intervention are presently being used in numerous settings such as hospitals, primary care settings, trauma centers, and college health services. Alcohol/Drug Screening and Brief Intervention: Advances in Evidence-Based Practice examines in detail original research and cutting edge research issues in these settings to provide an important review of what is known and what is not...
