Dog Ear Publishing, United States, 2009. Paperback. Book Condition: New. 216 x 137 mm. Language: English . Brand New Book ***** Print on Demand *****. This step-by-step guide to safe and inexpensive food production is organized and provided for the purpose of allowing each inexperienced reader to effectively and successfully take control of his or her basic food supply. In securing this food supply they provide themselves with freedom from fear of having food available due to financial stress, concern for food safety, and protection from those that would hoard under unexpected circumstances. This is your safety net. The prudent see danger and take refuge from it, but the simple keep going and suffer for it Proverbs 27: 12. It is essential in providing security for our families that a safe and readily available source of food, which has no chance of being contaminated, abused, damaged, overpriced, or hoarded, is present at your finger tips. There will be many choices to make as you filter and digest the information present in this guide. Choices will include organic versus conventional versus a hybrid of the two production systems, where to plant, what to plant, what to store, freezing versus canning, different types of storage methods, seed sources, with or without irrigation, and so on. There will not be a wrong or right decision related to the choices listed here, but management and execution of the choices is what will let you succeed or fail. The underlying goals, mentioned above, are to provide each reader with crash course in food production, a sense of the importance of food security for their families and our society, and the understanding of exactly how to achieve that food production. Our educational systems at the primary, secondary, and collegiate level, with the direction of our almighty government...
