

# The Ultimate Candidates Campaign Handbook

Filesize: 2 MB

## **Reviews**

*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Createspace, United States, 2010. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.To understand the elements that brought this book into fruition, one must go back many years. This book is intended to illustrate the subtleties between elections and military strategies. The entanglements include: Charisma, Mind Control, It began for me while taking a History of Military Strategies class in college as an ROTC cadet. All the elements of control were emphasized in this class. I subsequently received my undergraduate degree from De Paul University. I later returned to graduate school still enamored with what controls are precisely manifested over people in military conflicts and ultimately in election campaigns. However, I determined in graduate school that a conventional military strategy was just a catch phrase. The new paradigm was non conventional or unconventional strategies. It was time to realign, reset, and recalibrate the old ways of thinking. I concluded the research, and wrote my thesis based on my findings. It was accepted and I received my Masters degree from Roosevelt-University of Chicago combined studies. I would have preferred to just let you read my Ultimate Candidates Campaign Handbook without any preloading of my past. The parallels between military strategies and civilian election campaigns are profoundly similar. I suggest you, the reader, apply your personal perceptions of strategies, and then proceed to read this book to make your own salient conclusions.
