Before Schliemann began his archaeological investigations at Hissarlik in 1870, many scholars believed that Troy was a mere figment of Homers imagination. The story of the Trojan War, as it was described in the Iliad and the Odyssey, lacked corroboration from reliable historical sources, and the ancient citys geographical position had never been determined. Excavating entirely at his own expense, Schliemann discovered multiple cities built one above the other after periodic destruction by earthquake, fire, or war. The golden treasure he found there dazzled the world and led to an understanding of the historical period now known as the Bronze Age. The present volume is Schliemanns own account of his discoveries at Troy, including a brief but fascinating autobiographical sketch. It also contains his reply to critics of his decision to deceive the Turkish authorities, smuggling his discoveries to safety in the west. He defends his actions on the grounds that these objects belong in museums, not in the black market of international antiquities-their probable fate had they remained in Turkey. Readers of this book may also be interested in Tree of Life, Mythical Archetype, by Gregory Haynes, also published by Symbolon Press. That volume contains a Foreword by Michael Witzel, PhD, Wales chair of Sanskrit at Harvard University. Haynes presents persuasive evidence that the symbols found by Schliemann at Troy represent elements of the ancient Tree of Life cult, which is known to have been worshipped widely in antiquity. This is a facsimile edition of the 1875 original. It excludes the tedious and now out-of-date preface by Philip Smith, but presents the entirety of Schliemanns text.
