Pub Date: October 2012 Pages: 189 Language: Chinese in Publisher: Peking University Press. the U.S. Department of Defense basic research is the basis of its advanced weapons. the basis of management's direct impact on the development of national defense as a whole. therefore. the study U.S. Department of Defense basic research is to study the core of the U.S. defense. The analysis of the management system is a complex study. The Department of Defense basic research is a public good. the government will be the main investors. DoD basic research object is science. and science has its own development path and laws. not to the will of the people for the transfer. but the people's initiative can make science for the benefit of mankind. The management system is both historical inheritance and innovation of the new situation. is a long-term change and short-term stability of the system. From the time a node management system is assigned to the human. financial and material resources. responsibilities. tasks. which involve policy guidance. coordination and execution of legal protection. institutional. Therefore Humanities...

## Reviews

*This pdf may be worth purchasing. This is for anyone who statte there was not a really worth reading. I found out this pdf from my i and dad encouraged this pdf to understand.*

-- **Mrs. Annamae Raynor**

*If you need to adding benefit, a must buy book. This really is for all who statte that there had not been a well worth reading. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Claud Bernhard**
